## ICT PERMISSIONS

Lyneham High School believes the use of ICT is fundamental in assisting teaching and learning as well as enhancing the ways in which teachers and parents can communicate with each other.

The use of web-based learning resources and cloud-based storage has risen steadily over the last decade and are increasingly being used by teachers across the Directorate to improve student learning outcomes.

As our school has registered with a range of web-based service providers, some of which requires personal information about you or a student in your care, I am obliged under the Commonwealth Privacy Act (1988) to advise you of the reasons for collecting the information, what will be done with it and who else may have access to it.

The attached document identifies these systems and sites, their purpose, their homepage and their privacy statement (or equivalent).

For your child to have full access to the administration and teaching resources available in the school, it's important you provide your consent, sign the form, and return to the school as soon as possible.

If you have any further questions about the implications of signing this permission slip or you would like to seek further clarification around the use of these resources, please do not hesitate to contact the school.

Kind Regards,

Julie Collins  
Acting Principal  
Lyneham High School
